

COMPLACENCY.

I am not hard at all to please.  
My wants are simple as can be.  
Ask of others only that  
They shall not interfere with me.  
I limit no one's words or acts.  
I care not what folks do say.  
Or even how selfish they may be.  
If I can only have my way.

I hate the grasping egotists  
Who disregard all others' claims  
To anything and only strive  
To gratify their selfish aims.  
I ask for nothing but my rights.  
From hour to hour, from day to day.  
And I am always quite content  
If I can only have my way.

Body Remains In Grave

Commercial Tribune.

The Newport authorities are still undecided as to what to do with the body of the man who met death under the wheels of a train at Maysville, Ky., recently, and who was at first identified as Paul Mauser, but is now unidentified because Paul Mauser was found alive and well in Chicago.

The body was brought to Newport by relatives of Mauser and buried by them, and neither Campbell county nor the Mason county officials want to go to the expense of having it moved.

We presume it is taken for granted by the public that, having contracted the bad habit of giving something away each year, we are still subject to it, for we are repeatedly asked, "What are you going to give away this year?" Not to keep our friends in suspense, we beg to say that we have concluded to distribute a number of presents instead of just one, namely:

Good Things in FLAX

That assure the most welcome economies—silver bleached table linen and napkins woven from yarns bleached before weaving. This bleaching is done on grass, no chemicals being used. The linens are not quite snow white, but have all the life and luster of the flax, wash white quickly and give far more wear than fully bleached linens. Linens for steady service in the home. They will also be of interest to hotels and restaurants where good looks, good service and low prices count.

- 75c. Extra heavy damask 72 inches wide; a half dozen patterns. It would be a lucky find at \$1.

The "Pied Piper" of fashion is calling in the "rats," and feminine heads will soon be of normal size.—Commercial Appeal.

Just think of it: Over 2,000 persons were killed and injured on Kentucky railroads last year. This casualty list nearly equals similar accidents in the whole of Great Britain.

PETE ULAM of The Publicist, who is about 4 feet 6 inches high and a bachelor, says that when a short man kisses a tall girl he realizes that good things come high, or words to that effect.

Reciprocity that is world-wide is a good enough policy for us. "Live and let live" is, next to the Golden Rule, about as good a line of argument as can be used to fix the eternal status which ought to exist between man and man.

THE MAYSVILLE PUBLIC LEDGER says that modern science has discovered that worry will kill. We don't believe it. If it would every newspaper man would be dead from worrying over delinquent subscribers.—London (Ky.) Echo.

THE ELIZABETHTOWN NEWS, edited by HARRY SOMMERS, who is regarded as one of the shrewdest political prophets in the State, is out with the prediction that former Governor BECKHAM will be a candidate for United States Senator to succeed Senator BRADLEY.

It is so dry down in Oklahoma that The New Era of Davenport, in reporting a shower, says:

"During JEFF SAWYERS' sale last Saturday a slight shower of rain came down. A yearling mule was almost scared to death."

SAN FRANCISCO gave \$17,500,000 for the Panama Exposition, so-called, and the big show is not to cost Uncle Sam a cent. It's hard to see just how any exposition can be pulled off without a dozen carloads of National Museum stuffed animals and other fossil junk.

COLONEL THEODORE ROOSEVELT is going to speak at Chicago on Washington's birthday and he may inform the hustlers of the Windy City that the immortal GEORGE was a two-for and a monkey-kicker. However, Teddy is not so keen as he used to be in his brick throwing propensities.

MR. STANLEY says if the crisis demands it he will enter the race for Governor. We hasten to assure Mr. STANLEY that the crisis does not now demand his services, and we hope such a condition will never arise when Kentucky will have to have him for its Chief Executive.—Bluegrass Clipper.

Who'll be the next lady to hook up with Colonel NAT GOODWIN in the matrimonial harness? When his fourth wife EDNA GARRICH, secured a divorce from him in New York Monday, there was said to be a tear in one NAT's eyes as he remarked:

"Guess I'm once more a matrimonial remnant cast upon Cupid's bargain counter."

NAT must be getting a little shop worn by this time.

CANADA buys about five times as much from the United States as we do from her, and therefore "she" has five times more to lose than U. S. & Co. in this reciprocity game.

CHAMP CLARK, the so-called Democratic leader has already put his foot in it by his "jocular remark" about the U. S. annexing Canada. There is a furore in England and Canada and CHAMP must eat his own words.

THERE is no use crying over the past record that Kentucky has made. The thing to do is to get to work and remove some of the things which have stood in the way of Kentucky's progress.—Frankfort State-Journal.

IN refusing to co-operate with "BILLY" SUNDAY's methods of soul-saving the Faculty of Wittenberg Theological Seminary, Springfield, Ohio, added:

"If those in charge of the SUNDAY meetings can do any good the Lord bless them. This is not the method of our Church."

THE PUBLIC LEDGER has opposed Speaker CANNON because he was a Republican mossback. It is an unpardonable sin for a Republican to be a mossback. The citizens of Washington City claim that the defeat of Speaker CANNON will work for the good of the Capital, and one of the prominent citizens' associations met this week and adopted resolutions congratulating Washington on "the pleasure of a prospective change in the Speakership of the next House." Speaker CANNON must indeed be unpopular when the public clamors for a change even if it is such a windy fellow as CHAMP CLARK. However, CLARK can do no harm as long as we have a Republican President and Senate.

THE NASHVILLE TENNESSEAN and American urges the women's clubs of Tennessee to get behind the good roads campaign in that State.

The suggestion is meritorious.

Women's Clubs and Good Roads

In Tennessee as in Kentucky the women's clubs are making a strong effort to send traveling libraries into all the remote regions of the State. It is a splendid movement, and one of the greatest obstacles it is compelled to overcome is the wretched condition of many of the rural roads. The Tennessean and American rightly says that "poor attendance at country schools and in rural Churches and Sunday-schools is almost invariably due to the bad condition of the roads." In addition "impassable highways condemn farmers to social isolation and hinder the activity of all lodges, clubs and societies as well as religious organizations."

The women's clubs of Tennessee can materially forward the cause of good roads by taking up the question in earnest and agitating it at their State and local meetings and at gatherings in city and in country. The women's clubs of Kentucky have not overlooked the good roads proposition, but there is still room for a healthy agitation, not only among the women's clubs, but in the ranks of other organizations which are laboring for the general good. There is no issue that is more important to Kentucky and to Tennessee, and there should be a move all along the line for the betterment of highway conditions.—Courier-Journal.

Fiscal Court Grants Right of Way Across Turnpikes Into Maysville

The Maysville Gas and Electric Company was yesterday granted the right of way across the Hill City pike to lay the 8-inch natural gas main which taps the big 20-inch pipe line of the Cincinnati Gas and Transportation Company, on the Glascock farm, three miles South of Maysville.

The Maysville natural gas main will come into this city over Hord's Hill.

Captain H. J. Cochran states that the rights of way from the big pipe line to Maysville have all been secured, and that, if nothing interferes, his Company will pipe the gas into Maysville by June, the time agreed upon.

## One Way of Saving a Baby—Free to Try

The mother does not live who would not do all in her power to keep her child healthy, but often she does not know how. So when a doctor of standing points the way all can afford to listen.

It is an accepted fact that nine out of ten of the troubles of infants and children is intestinal. You notice it by the fact that the child is constipated, it belches, is peevish and cries. Don't give a remedy that contains an opiate, because the child will get in the habit of needing it, and don't become alarmed and run at once for a doctor.

Try a scientific laxative first. Give a small dose of Dr. Caldwell's Syrup Pepsin, the remedy that is intended for the use of children. It is mild, gentle and non-gripping. The remedy is absolutely pure and is guaranteed in every particular. Mrs. Toomey of Emingsville, Pa., and Mrs. Fred Crome of Alanson, Mich., never give their children anything else. These are only a few among thousands of women.

You can buy a fifty cent or one dollar bottle of any nearby druggist, for they have all sold it for a generation, but if you want to test it on your child first send your address to Dr. Caldwell and he will cheerfully send you a free sample bottle.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell, 641 Caldwell Building, Monticello, Ill.

## 20% UNDERFEED INVESTMENT

Most heating systems are an actual drag on the domestic treasury. If you want to enjoy actual every-winter dividends, tear out your old glutinous coal-eater, with its uneven heat and hard-to-satisfy appetite for fuel. Put in a

PECK-WILLIAMSON UNDERFEED FURNACE OR BOILER

Choose the system you like best—warm air, steam or hot water. Cheapest slack in the Underfeed yields as much heat, even heat as most expensive grades, which ordinary heating plants require. All the fire is on top and has to eat down into the fresh coal against the draft. Combustion is slow and perfect, and smoke, soot and gases are entirely eliminated. This enables Underfeed furnace and boiler users to

SAVE 20% OF COAL BILLS.

This saving represents a 20% dividend on the investment for this modern system of heating. Figure it out. It won't take long to get your money back. The Underfeed adds to the selling or renting value of any building.

## A Good Thing FOR BOTH OF US.

You get some good out of our Clearance Sale. You get unusually good merchandise at an unusually low price. But the benefit isn't all yours; we get something out of it besides the small price you pay us for the big values we give you; we get our stock cleaned up, and, better than all else, we make a lot of good friends by it. The eight lots of Suits for men we have had on sale for the past two weeks have been greatly reduced in number, so we have decided to reduce what is left in price. We are selling them below cost. We have only six left, running from \$3 to \$10. We also have some of 1910 fall and winter goods left. They are the Hart, Schaffner & Marx Brand and Quality and they are mighty low in price. Don't forget that you can get the best Shoes sold here. We have everything a man wears, and everything must be satisfactory that you get from
